# Participants in the NATIONAL TURKEY IMPROVEMENT PLAN

NATIONAL PLAN HATCHERIES  
NATIONAL PLAN DEALERS

*and Independent Flocks*

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Turkey Improvement Plan. Additional information regarding these participants may be obtained by writing to them, or to the Official State Agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or poults from the listed participants write the Official State Agency for a confirmation of the classification before making such purchase. Supplements to this publication, containing changes in participation, will be published periodically.

## FOREWORD

The hatcheries, dealers and independent flocks listed in this publication are participating in the National Turkey Improvement Plan, according to reports submitted by the Official State Agencies. They are listed by States and alphabetically within the following categories:

- (1) Hatcheries & Dealers with U. S. Pullorum-Typhoid Clean products
- (2) Independent flocks classified as U. S. Pullorum-Typhoid Clean
- (3) Hatcheries & Dealers with U. S. Pullorum-Typhoid Passed products
- (4) Independent flocks classified as U. S. Pullorum-Typhoid Passed

The figures in the column immediately following the name and address of the participant indicate the capacity of hatcheries and number of birds in independent flocks. The turkey hatching egg capacity is shown in the following manner: (1) Exclusive turkey hatcheries include combined incubation and hatching capacity (Manufacturer's rating for turkey eggs); (2) Where hatcheries incubate and hatch both chicken and turkey eggs and use separate machines for each, the combined incubating and hatching capacity (Manufacturer's rating for turkey eggs) of the machines used to hatch turkey eggs is reported; (3) Where chicken and turkey eggs are hatched in the same machines an estimate of the capacity used for turkey eggs is reported.

The following abbreviations indicate the type of products each dealer offers for sale:

DE	-	Hatching egg dealer
DP	-	Poult dealer
DEP	-	Dealer in both hatching eggs and poults

The letters which appear under the classification headings indicate the variety of the products produced by the participant in that classification. The code used to indicate the variety is as follows:

a - Broad Breasted Bronze	i - Lancaster
b - Standard Bronze	j - Michigan White
c - Broad Breasted Small Bronze	k - Broad Breasted Beltsville Small White
d - Small Bronze	l - Beltsville Small White
e - Broad Breasted White Holland	m - Nebraskan
f - White Holland	n - Broad Breasted Large White
g - Broad White	o - Broad Breasted Small White
h - Empire White	

Varieties not included in the code are designated by numbers, which are identified by footnotes at the bottom of the page on which the number appears.

Crosses are designated by combining the code letters of the varieties involved, indicating the male first.

Example: "af" indicates Broad Breasted Bronze toms mated to White Holland hens.

This list should be helpful in finding the classification of the product of the hatchery or dealer from whom purchase is to be made. Information concerning the status of products of hatcheries not listed may be obtained by writing to the Contact Representative.

The name and address of the Contact Representative and the Official State Agency are indicated at the beginning of the list of hatcheries for each of the cooperating States.
